

MERV 15 Pocket Air Filter

Convenience Where You Need It Most

Filterbuy Pocket Air Filters offer flexible solutions to meet your air quality needs. Choose from a variety of configurations of 5, 6, 8, or 10 pockets, depths ranging from 12 to 30 inches, and up to 80 square feet of effective media area. For optimal performance, select the largest filter that fits within your system's airflow capacity and available space. Prioritize filters with the most effective media area for superior air filtration.
